

— Features

- PET Bottle Recycling: Cleaning and processing used PET bottles.
- High-Quality Flake Production: Creating clean PET flakes for reuse.
- Contaminant Removal: Effective separation of labels, caps, and impurities.
- Water-Efficient Washing: Advanced systems for eco-friendly washing.
- Food-Grade Applications: Producing recycled PET suitable for packaging.

— Why Choose Us?

- ♻ European-quality engineering at competitive pricing.
- ♻ Modular, customizable layouts to match local material and capacity needs.
- ♻ Built with stainless steel parts in water-contact sections.
- ♻ Compact design with efficient use of space.
- ♻ Expert engineering & after-sales support.
- ♻ Low maintenance & long machine life.

OUTPUT
Capacity:
500, 1000,
1500 & 2000
Kg/Hr

Modular,
customizable
layouts to match
local material
and capacity
needs

- **Trommel**
Initial Stage For Removing Loose Dirt, Sand, And Small Contaminants.
- **Label Scratcher & Label Blower**
Effectively Removes Bottle Labels And Surface Contaminants Before Grinding.
- **Grinder**
Grinds Bottles And Films Into Uniform Flakes For Efficient Washing.
- **Turbo Friction Washer**
Uses Hot Water And High-Speed Rotors For Deep Cleaning.
Stainless Steel Construction For Durability.
Adjustable Speed And Temperature For Optimal Washing Performance.
- **Hot Washer**
Enhances Removal Of Grease, Glue, And Other Stubborn Residues Using High-Temperature Washing.
- **Sink-Float Separation Tank**
Separates Floating PE Materials From Heavier PET, Ensuring Material Purity.
- **Centrifugal Dryer / Spin Dryer**
Removes Excess Water From Flakes Using High-Speed Rotation For Fast Drying.
